

Costa Smeralda

Sardinia

Buongiorno!
Remember me,
Francesca, your tour
guide in Rome?
Because I remember
YOU!
And that's why I am
writing.
Have you ever heard
of Sardinia?
In Italian- Sardegna-
No?
But to Italians it is
Paradise.

Just like the moon, a
female, tempts us with
her mysterious beauty,
hinting at her
undiscovered treasure,
so Sardinia is a
temptress.

La dolce vita

Picture this: you completely surrender to crystal clear waters, your feet on silky sands, you feel carefree and happy- experiencing an authentic, Italian wonderland. No worries.

Your accommodations, home cooked meals, tours, all taking care of by Francesca!

Last summer I spent 10 glorious days in Sardinia where I had an HAHA moment- how can I share this next summer with my beloved clients and friends?

My idea: renting a 7 bedroom villa to share an incomparable experience.

One week in Sardinia everything included

That means that all you do is fly to Rome or to Milan and continue on with a 40 minutes flight to Olbia airport. Upon your arrival I will pick you up and take care of you for the entire journey.

Translation:

No worries about hotels, restaurants, tours...

Francesca will take care of everything for you.

I will be with you to share your vacation in a 12.000 foot 7 bedroom **villa**, built on an idyllic pink granite mountain, with a breathtaking sea view.

The villa has 3 floors, 7 bedrooms with en-suite bathrooms, independent entrance and a patio, tv, AC and free Wi-Fi.

The villa includes a pool, BBQ, two indoor living rooms, outdoor dining areas.

A chef, a maid and a driver.

All meals will be home cooked and you can request any special diet.

Wine, drinks and water will be available in the house at anytime.

There is a big air conditioned kitchen where we could have fun cooking together.

I am also a good chef and I can give you some cooking classes!

We will enjoy great dinners, eating outside with an amazing sunset view!

Together we will make an **agenda** for the week: what to do and where to go, based on your wishes and your preferences.

Sardinia offers **many options**: relax at the beach or at the villa, boat excursions, precious small islands, history, archeological tours, energy places for

meditation and healing, tourist centers with movie stars and celebrities, Italian fashion shopping, luxurious hotels and resorts, exclusive clubs and restaurants.

I will give you all my assistance and expertise to live an unforgettable **authentic Italian experience**.

My dream is sharing with you a fabulous experience surrounded by beauty, good energy and well-being. I am sure that you will love Sardinia!

***My dream is
your dream!***

Why did I decide to do this ?

I really love my job and I have a passion for art, history, food, wine, cooking and beautiful places. I love to share all that Rome and Italy have to offer. But above all I love to share that with nice people.

Italy has hundreds of beautiful towns and places to visit. Some of them are very well known like Sicily, Amalfi coast and Tuscany. But there are other places- Only known by Italians.

Here I could make a long list of those amazing places but I just want to tell you about one: **Sardinia!**

Why Sardinia?

Because there is no better place!

You can swim in the warm crystal clear water, lie down on that beautiful white or golden sand.

You can look at those imposing granite marble stones, sculpted by the wind and sometimes shaped as strange animals.

It's like love at first sight!

But it's not only the landscape and the emerald water that captures you. Here you **feel** a **peace** and sense in perfect **harmony** with the Universe.

This special feeling of well-being occurs in Sardinia because of the presence of four **Energy Places** - much like those in Stonehenge

Sardinia is really magic and surrounded by mystery. Many people even think that Sardinia could have been the lost world called **Atlantis**.

Atlantis was found by Atlante, son of Poseidon, over 10.000 years ago.

According to the legend it was submerged into the Atlantic Ocean when Atlante felled out of favor of his father.

There are over 7000 **Nuraghe**, Nuraghs in English. They are ancient megalithic edifices developed during the Nuragic Age, 13000 years ago.

You can look at some interesting links:

A fairytale story

The so-called **Costa Smeralda** developed in 1960' by **Karin Aga Khan**, billionaire Ismaili **prince**, who felt in love with that emerald sea and those spectacular beaches and decided to invest in building ports and villas and develop this area.

Imagine a prince arriving with his boat with luggages full of money.

Inhabitants of Sardinia were humble people and shepherds and they sold their land to the prince.

Then movie stars and celebrities starting the successful transformation of Costa Smeralda into an exclusive elite summer vacation.

But people from Sardinia still like their simplicity and they are famous for being **long lived people**.

In Italy besides the beach vacation, **Sardinia**, among the Italians, is not yet well known for the **history** and archeology.

In fact this special and ancient sites were declared by the **UNESCO** only in 1974. There are excavations nowadays because archeologists are discovering many important facts of the XV century BC.

It seems crazy but archeology is a modern study. I was born in 1979 and I have never study about this sites in Sardinia. I had never heard about this archeological importance.

Now, I am fascinated about all that and I want to share it with you.

My experience in Costa Smeralda

This summer I have been there two times and I had a magic experience. So I thought that on the next summer I could work there and share my experience in Sardinia with you.

I thought that my clients don't know much about this corner of paradise.

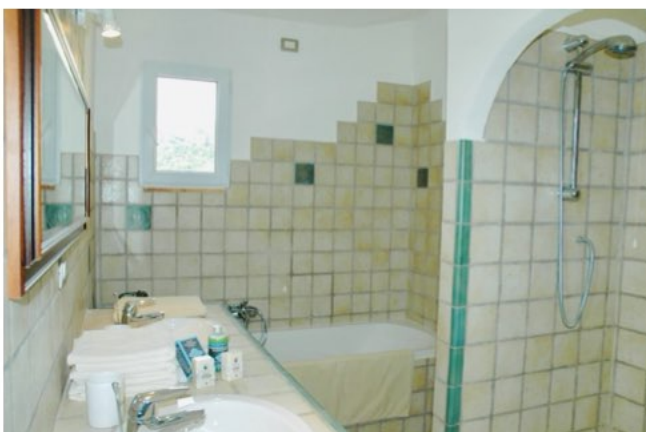

While I was there I thought that I could invite all my beloved friends and clients to spend the best time together and give them the opportunity to live an **authentic Italian vacation**.

Real Italian **homemade dishes cooked for you** everyday, relax, fun, sunny days at the beach,

socializing, good vibes and connections with nature, ocean and history.
